

ACHIEVEMENT GAPS-ELEMENTARY SCHOOLS

Data Based on Criterion-Referenced Test (CRT) Results

Goal 2: Reduce the overall achievement gap percentage points in elementary and middle school between the highest performing subgroup and ethnic/racial subgroups.

Please Note: For the 2012-13 and 2013-14 school years, the highest performing subgroup in the Clark County School District was the Asian population. A negative number indicates the school supergroup (all ethnicities minus Asian) is below the highest performing district subgroup (Asian). A positive number indicates the school supergroup (all ethnicities minus Asian) is performing above the highest performing district subgroup (Asian).

ACHIEVEMENT GAPS-MIDDLE SCHOOLS

Data Based on Criterion-Referenced Test (CRT) Results

Goal 2: Reduce the overall achievement gap percentage points in elementary and middle school between the highest performing subgroup and ethnic/racial subgroups.

Please Note: For the 2012-13 and 2013-14 school years, the highest performing subgroup in the Clark County School District was the Asian population. A negative number indicates the school supergroup (all ethnicities minus Asian) is below the highest performing district subgroup (Asian). A positive number indicates the school supergroup (all ethnicities minus Asian) is performing above the highest performing district subgroup (Asian).
